So Doing.HOUSE IS STILL IN AN UPROAR
AND NO BUSINESS DONE.Thursday's Scene of Disorder Still
Continued—Speaker Crisp Confined
to His Hotel by a Severe Sore
Throat—Reports of the President's
Illness Denied.

WASHINGTON, Feb. 24.—[Special.]—The Secretary of War today received the decision of the comptroller in the case of General Sickles which declares that the general does not forfeit his army pay because of his election to congress. Disorder still rules in the house. When Clerk Kerr called them to order he read a communication from Speaker Crisp, who was suffering from a severe sore throat and was confined to his hotel, appointing Mr. Richardson of Tennessee, speaker. As soon as the journal was read Mr. Adams (rep.) of Pennsylvania, who was being tried when the proceedings were terminated Thursday by the adjournment, was clamoring for recognition on a question of privilege. He yielded, however, to Mr. Wells (dem.) of Wisconsin, who made a statement to the effect that he was erroneously reported as voting "no" on the motion to adjourn. He denied that he had taken any part whatever in the unseemly proceedings in the house on Washington's birthday.

"Had I voted at all," said he, "I should have voted for the adjournment in order to put a stop to the disgrace-

ful performance." Mr. Bland denounced the New York delegation in heated words. He was several times called to order by Representative Coombs of New York. The house, in consequence, was in another uproar.

Mr. Cummings (dem.) of New York, asked that his colleague, Mr. Sickles, be excused on account of sickness. He was excused and the speaker pro tem ordered the pending question to be the motion to discharge Mr. Adams from the custody of the sergeant-at-arms. Mr. Adams wanted to know why on Thursday, while he was under arrest at the bar of the house explaining his case in a parliamentary fashion, the mace of the house should have been employed to force him to his seat.

"Why," he asked, "should this indignity have been put upon me while I was endeavoring to carry out the mandate of the house?"

The chair stated that this question would have to be raised later, the pending question now being to discharge the gentleman.

Mr. Reed called attention to the fact that the question had not been properly stated. It was to discharge Mr. Adams because the warrant under which he was arrested was unauthorized.

Mr. Springer attempted to interpose an amendment which had for its purpose the discharge of all members under arrest as the most expeditious way out of the tangle, but Mr. Reed demanded the previous question and he was cut off.

The democrats then decided to vote down the previous question in order to open the way for Mr. Springer's amendment. Some of them, however, notably the eastern democrats, voted with the republicans. The previous question was voted down—95 to 159.

Mr. Bland then offered as a substitute for Mr. Reed's motion a motion to discharge all members arrested by authority of the resolution passed by the house on the 19th inst. Mr. Reed made the point of order that Mr. Bland's amendment was not germane, and the point was argued at some length.

The proceedings were ended at 3:15 in the afternoon by the house agreeing to discharge from arrest all members who had been taken into custody by the sergeant-at-arms.

Mr. Bland then moved that the house go into committee on the whole to consider the silver bill, and that all debate close at 5 p. m. to-day. On this the previous question was demanded.

Filibustering at once began again, as Mr. Tracey (dem., N. Y.) demanded a division of the vote for the previous question. The division showed 147 to 2; no quorum. Mr. Bland moved a call of the house, and Mr. Tracey moved to adjourn. An aye and no vote was taken on the motion to adjourn, resulting 19 to 205, and the house refused to adjourn.

Mr. Reed then moved to take a recess until 8 p. m. This was agreed to. At the night session, which was to consider pension business, Mr. Russell (dem., Ga.) made the point of no quorum. He afterwards withdrew it, but the absence of a quorum prevented the transaction of business and at 9:30 the house adjourned.

TARIFF BILL COMPLETED.

Voorhees Says It Will Be Submitted
Monday to the Full Committee.

WASHINGTON, Feb. 24.—Senator Voorhees, chairman of the senate finance committee, was in conference with the tariff subcommittee for an hour yesterday afternoon, and when he came out of the room said that a call would be immediately issued for a meeting of the full committee Monday morning at 10 o'clock for the consideration of the perfected tariff bill. Mr. Voorhees would not say anything more on the subject, but it is understood the subcommittee has completed its work, and that the results of its labors have been submitted to the full democratic membership and accepted by all as the bill which is to be reported to the senate.

Senator Gorman, chairman of the democratic caucus committee, said that he thought a caucus would be insisted upon and that the call would be issued for Monday morning, in accordance with the terms of the request circulated. The call does not specify any particular subject for consideration, but there is no doubt in the minds of senators that the main, if not the only, purpose of it is to try to harmonize the party on the tariff bill.

Wheat Scarce in the Northwest.

MINNEAPOLIS, Minn., Feb. 24.—The Northwestern Miller this week contains two interviews regarding wheat held in elevators. An elevator manager says: "Wheat outside of the elevator stocks is already scarce in the northwest, and as it promises to be in much greater demand by summer we expect to be in a position to exact a good sized premium on our holdings by the time we are ready to let go of them."

Erastus Wiman Still in Jail.

NEW YORK, Feb. 24.—Erastus Wiman made through his friends every possible effort to secure bail yesterday, but Staten Island's autocrat, who is in the Tombs under two indictments for forgery and is generally charged with having robbed R. G. Dunn & Co., with whom he was for thirty years associated, of over \$229,000, is yet in prison. It is generally understood that he will procure the necessary bail to-day.

THUGS WITH A GUN
WORK IN ROCKFORD.JOHN MURISON HELD UP ON
MAIN STREET.

While on His Way to Lodge and
Walking on a Business Street He
Runs Against the Muzzle of a Big
Revolver—Shows Fight and Risks
Shooting.

ROCKFORD, Feb. 24.—"Hold up your hands!" were the words that greeted John Murison about 7 o'clock last evening as he was about to turn from Knowlton street onto Main street on his way up town to attend a lodge meeting.

On looking around Murison saw two men, one of whom was pointing a revolver at his head. He surprised them by fighting viciously. One shot was fired and then grabbing the hand that held the pistol Murison struck out with his left, at the same time shouting for help. The disarmed thug seized Morrison by the throat and attempted to stop the warning cry, but to no avail and the approach of John and James Welch, who heard the shouting and rushed to the rescue, frightened the highwaymen who fled toward the railroad. Murison had but a small sum of money on his person. He resisted because his watch was a present to him some years ago and he values it very highly.

COAL MINERS IN PRISON.

Tearful Scenes When the Men Are Taken
to Serve Sentence.

PITTSBURGH, Pa., Feb. 24.—The fifty-one coal miners convicted of rioting at Mansfield and Hunola were taken to the penitentiary and workhouse yesterday to serve out their sentences. The waiting room, the outside entrance, and the street in front of the jail were crowded with the friends and families of the prisoners.

TREASON CHARGED.

Toledo People Excited Over the A. P.
A. Exposure.

TOLEDO, Ohio, Feb. 24.—Threats of federal grand jury investigations and trial for treason as a result of recent A. P. A. exposures have created wild excitement in this city. The fact that A. J. Rummel, a large dealer in firearms here, has secured a judgment amounting to \$4,138 in a justice court against George H. Ostrander does not seem at all unusual in itself, but it has developed sensational charges in that the so-called "know-nothing" society is in unlawful possession of 3,000 Winchester rifles. The justice court trial is almost certain to be followed by a war department inquiry into the matter, and this inquiry will be pushed to the end.

It is generally understood here that the matter will at once be brought to the serious attention of the federal grand jury, and that a special sitting will probably be called. The case will also be reported to the attorney-general at Washington and will be pushed to an issue without delay. There is great excitement and a deep feeling of resentment, and Roman Catholics and others who oppose the A. P. A. have become thoroughly aroused against the order since the details of the gun purchase have been made public, and an effort will be made to crush the society in this city, where for two years it has practically held the balance of political power. Some of the city officials, including the mayor and police commissioners, are said to have been among the numbers "fearful of an uprising," and are charged with purchasing rifles for their own "protection."

The members of the A. P. A. have testified that the reason they armed themselves was because a general uprising of Catholics all over the country was expected to start in Chicago on Labor day last September, and because it was reported in the secret councils of the A. P. A. that the Catholics were preparing to rise up and kill off all Protestants at one fell swoop. It was to prevent this, according to their testimony, that the preparations for a religious war were made in the securing of arms.

The members of the A. P. A. in Toledo claim that they have 7,000 voters on the city rolls.

WASHINGTON, Feb. 24.—It is said at the department of justice that the reported arming of organized bands of men in Toledo, Ohio, under the auspices of the American Protective association has not in the remotest way received the attention of the officials of the department. The whole matter is treated lightly at the department, however, and the reports are regarded as highly exaggerated.

Fruit Rained in Mississippi.

CANTON, Miss., Feb. 24.—It began sleeting here yesterday and continued throughout the day. The fruit crop is ruined, as many peach trees are in full bloom.

HER HOME INDUSTRIES.

Business Man Took a New York Leaf
Buyer For an Unlawfully Fast Ride
and the Court Made Up For the
Small Price Brought By Wisconsin
Tobacco.

STOUGHTON, Feb. 24.—Stoughton is now going on the "when-you-catch-a-nigger-punch-his-head" theory. When J. Weil, an eastern tobacco man came to town A. T. Torgeson set out to entertain him with a drive about town. Eight times, so Marshal Lynch avers, they scooted across the bridge at a pace unwarranted by the city ordinances, and then then the officer thought it was time to interfere. Then the court decided that Torgeson was innocent, but convicted Weil and fined him three dollars and costs, a total of \$11.10. Stoughton people think that those New York tobacco magnates can come out here and buy up our nice Wisconsin tobacco for 2½ cents a pound, with the cases thrown in, but they can't ride pell-mell over our beautiful bridge without paying for it. Not much.

FIRE BURNING IN A MINE.

Six Mules Suffocated, but No Human
Lives Are Lost.

SPRINGFIELD, Ill., Feb. 24.—Fire was discovered early yesterday morning in the Hickox mine, near the Wabash junction, south of this city, and is burning still. It is supposed to have been ignited when the miners quit work Thursday night. Six mules were suffocated by the smoke. The woodwork of the mine was burned out, but there is no way of ascertaining as yet the extent of any further damage that has been done.

CONDITION OF TRADE.

Dunn Says Some Encouragement Came
During the Week.

NEW YORK, Feb. 24.—A waiting condition of business is one in which weekly fluctuations mean nothing. Business of all kinds is hesitating until more can be determined about the future, and meanwhile orders which will keep hands at work for a time are given and accepted, this week increasing, as in some others decreasing, without affording reasonable indications of the future. Prices are again greatly depressed, as low or lower than ever having been made in wheat, silver and some manufactured products and neither cotton, wool, nor raw iron has advanced. The glutted money markets continue to show that the volume of business is still inadequate to employ the circulation available and the withdrawal of about \$60,000,000 from the New York market by the sale of government bonds does not cause the expected strengthening of rates. With gradually decreasing shipments of merchandise to other countries foreign exchange rises, and some exports of gold are expected.

The volume of domestic trade does not seem to increase. In all clearing-house payments the decrease is 44.6 per cent for the week, against 37.8 for the previous week, and about 37.5 per cent for the month thus far.

Industrial changes have been few, but a little better demand for some textile goods has started more mills than have stopped. There is a better feeling in fancy cottons, though some goods are a shade lower. Woolen dress goods are steady with fair demand, and though orders for heavy woolsens and worsteds are light they are a little better, some agents having made fair progress. Encouragement is felt by some in the calculation that clothers have done about 60 per cent of the usual spring business, while manufacturers have done about 32½ per cent, so that clothers' stocks must be reduced.

Prices of commodities now average about ¼ per cent higher than a month ago, and, excepting this year, have never been as low on the whole as they are now.

The failures during the last week numbered, in the United States, 285, against 193 last year, and in Canada 51½ against 37 last year. Both in number and in magnitude commercial disasters have diminished, and in the first half of February the liabilities thus far reported of all firms failing amounted to only \$8,319,698, of which \$3,679,845 were of manufacturing and \$4,559,375 of trading concerns. The aggregate of liabilities was \$9,649,252 in two weeks of January.

Ferretting Out the Ithaca Hazards.

ITHACA, N. Y., Feb. 24.—Cornell students met yesterday in class meetings and subscribed \$100 for the burial of Mrs. Jackson, who met her death at the freshman banquet. Snow Still Blocks Western Roads.

POPULISTS AT ST. LOUIS.

Result of the Deliberations of the National
Committee.

ST. LOUIS, Mo., Feb. 24.—The national central committee of the populist party, which has been in session here the last two days, Chairman H. E. Taubeneck presiding, concluded its work yesterday afternoon and the following resolutions were adopted:

"Whereas, The so-called Wilson bill fails to provide sufficient revenue to defray the legitimate expenses of the government and thereby creates a deficiency of which the administration will take advantage to issue interest-bearing bonds to saddle the overburdened nation upon future generations and further perpetuate the national banking monopoly of the country; and

"Whereas, It discriminates against the producers of raw materials in the south and west and protects the monopolists of the east; therefore, be it

"Resolved, That it is the sense of the national committee of the people's party that the people shall, by its senators and representatives, vote against the passage of said bill, unless it provides for said deficiency by an income tax; and further,

"Resolved, that they be requested to vote against said bill if said deficiency is to be supplied by the issuance of interest-bearing bonds."

Chairman Taubeneck said that plans had been perfected for the most general and vigorous canvass the party had ever made. Every congressional district in the United States will be organized and candidates put forth.

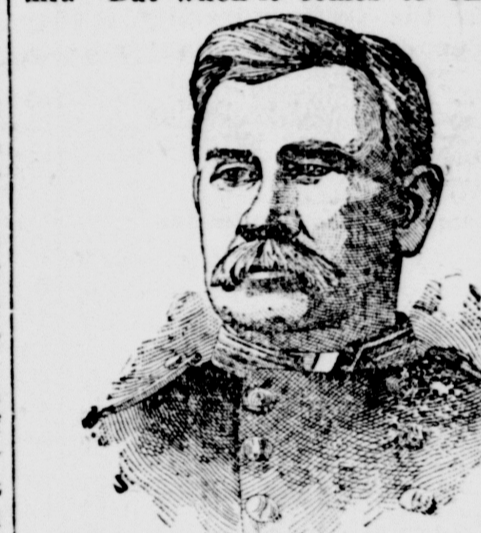

BENHAM IS SCORED.

The British Papers Criticise His Ac-
tion at Rio.

LONDON, Feb. 24.—The story cable to the press here by a news agency saying that the commander of the British squadron at Rio de Janeiro has refused to protect British merchant vessels in obtaining water is generally discredited but has aroused considerable feeling on the subject.

The Globe, referring to the subject, remarks:

"If the news is true, it is the duty of England to demand an immediate apology for Admiral Benham's extraordinary conduct. His action in giving protection to the Nasmyth was an unwarranted interference. Admiral Benham, no doubt, is at perfect liberty to bully the Brazilians as he pleases or as his superior officers permit. But when it comes to offering

an injurious insult to the British navy it is quite a different matter. His whole action in regard to the blockade would be described as a 'blaster' in this country."

The St. James Gazette says it is intensely irritating to be informed that a British ship had to seek the protection of Americans, adding:

"Surely Lord Rosebery does not acquiesce in the so-called 'Monroe doctrine' that the sole right to interfere belongs to the United States. We hope the action will not be allowed to pass without process."

Police Prevent a Demonstration.

LONDON, Feb. 24.—The undertaker's establishment on Chapel street, where the remains of Bourdin, the anarchist who was fatally injured by his own bomb Feb. 15, was surrounded with crowds of excited spectators, including many anarchists, from the earliest morning hours. But there was a strong force of police and detectives in and about Chapel street, and when the anarchists attempted to remove the body to one of their meeting places in Fitzroy square, where they intended that their leaders should deliver orations over the remains, the police interfered and forbade the carrying out of this program.

House of Lords Backs Down.

LONDON, Feb. 24.—The house of lords adopted by a vote of 89 to 76 Lord Salisbury's new amendment enabling parishes of between 200 and 500 inhabitants to forego the parish councils. The proportion of elected trustees in parish charities raised the main discussion of the evening. Lord Salisbury moved to restrict the proportion to one-third and his motion was adopted by a vote of 72 to 33, the liberal unionists supporting the government minority.

DONAHOE GROWS DRAMATIC.

Coughlin's Attorney Declares His Client
Will Never Hang.

CHICAGO, Feb. 24.—Attorney Donahoe commenced the third day of his address to the jury at 10 o'clock yesterday. With one hand upon the shoulder of the prisoner, Mr. Donahoe declared:

"Gentlemen, in all this case, in all the evidence, there is not one word which shows that Daniel Coughlin said aught against the name or reputation of Dr. Cronin."

Speaking of the man Smith, Attorney Donahoe said: "The prosecution has asked why we do not produce this man, if he can explain away the cloud of evidence concerning Coughlin and the Dinan horse. Do you not know, gentlemen, that, with a prosecution so bitter as this one, Smith will never come back? What one of you would walk into the clutches of these suspicious persons? If you did, you would value your life and liberty very lightly." When court reassembled at 2 o'clock in the afternoon Mr. Donahoe continued his address. Judge Wing will commence his speech to the jury to-day.

TO BURN AND SACK

Four Dangerous Men Placed in Jail at
Gadsden, Ala.

BIRMINGHAM, Ala., Feb. 24.—Will Smith, Ben Oakes, Jack Holcomb and Frank Cassells were prevented from burning and looting the town of Gadsden last night by being arrested and placed in jail. Their plot was to cut off the water supply, set fire to several stores simultaneously, and, taking advantage of the confusion, make a general sack of the city. The arrested men are leaders of a notorious gang which has terrorized Etowah county for several years. A female confederate disclosed their plot and aided in their capture.

Michigan Officers Indicted.

LANSING, Mich., Feb. 24.—Indictments were found by the grand jury yesterday in the election case against Attorney-General Ellis, Secretary of State Joachim, Treasurer Hambitzer, Land Commissioner Berry, and Clerks Warren, Potter and Bussey. At to-day's session the jury will find an additional indictment against Messrs. Joachim, Hambitzer and Berry, the board of state canvassers, for willful neglect of duty. Anticipating their indictment on the same charge Ellis, Joachim, Berry and Hambitzer requested Prosecutor Gardner to notify them by telegraph if they were indicted, so they could appear with their bondsmen ready to give bail for their appearance. This will be done.

CAR WAS DISABLED BY A MILK WAGON.

COLLISION ON SOUTH MAIN STREET THIS MORNING.

While the Team and Wagon Were Apparently Uninjured the Car Had to Be Pulled Back For Repairs as the Electric Connections and Platform Were Wrecked.

People on South Main street held their breath this morning when Car No. 3 crashed into one of Mrs. Hughes' milk wagons at Court street. The car was making its first return trip from South Main street and was bowling along at the usual speed, the track being clear of other vehicles. The milk wagon was at one side clear of the track, also moving in the same direction. When the car was close on to the wagon the driver suddenly turned his team to cross the car track. Motor-man Williams struck his gong, but the driver did not heed and apparently did not realize what he was doing until the crash came, the car striking the team broadside as they were fairly on the track. Strange as it may seem, the car suffered the worst, for the horses started off apparently all right, while the car was compelled to call for assistance to convey it to the repair shop, the front end being wrecked and the electric connections broken. It was a hair-breadth escape from a fatal accident.

STOVE FIRED THE BEER CASES.

Harmless Fire on North Main Street Last at 9 O'clock Last Night

Knipp Brewing Co., 57 North Main street, built a heavy fire in a coal stove last evening at 8 o'clock and then piled up case after case of bottled beer around the stove, many of cases being only an inch or two distant. Then he went home and to bed. At 9:10 o'clock a little son of Joseph Wallace saw a flame of light in the stove and gave the alarm at the east side fire station. Box 28 was pulled. The fire was extinguished with chemicals, the loss on stock being ten dollars, with no insurance. The building, owned by the Peter Myers estate, was not damaged.

CAME HERE AND WERE WED.

Rockford Couple Surprise Their Friends by Getting Married in Janesville.

A Janesville minister said the words the other day that startled a few Rockford people. A Rockford paper tells about it like this: "Sherman Weaver, of C. F. Henry's force, took a vacation Wednesday to go to Lena, but forgot all about that place and, accompanied by Miss Maud Fleming, went to Janesville where, with the assistance of a Methodist minister, the purpose of their journey was consummated. Mr. and Mrs. Weaver had expected to keep the matter from the knowledge of their friends for some time, but by some means it became very public. Mrs. Weaver is a charming young lady and deservedly popular among a large number of friends, while Sherman Weaver is one of the best known young men in this city. Mr. and Mrs. Weaver will go to housekeeping in a few weeks.

CHAT ABOUT JANESVILLE FOLK

The production is a strong one when in capable hands but was a disappointment and Walter Lawrence could not fill Alden Benedict's shoes. Benedict was supposed to take the leading part himself but he did not. C. L. Farwell's work as the rag picker was the best in the company.

ASHTON RESPECTED BY EDGERTON FOLK.

REPORTER SAYS HE STOOD WELL AMONG THEM.

His Business Relation With Trades People Had Been Above Suspicion--The Body to be Sealed Up and to be Brought Back to Fulton For Final Interment.

In speaking of the death of Matthew R. Ashton the Edgerton Reporter says: "Matthew R. Ashton was born in Canada, his mother being a sister of Daniel Stone, of Fulton. He came to the Stone farm Nov. 16, 1887. His home was in Wharton, lower Canada, where he owned two farms. He came to Wisconsin once on a visit before moving here, and at that time, 1883, he went as far west as Iowa to inspect Daniel Stone's land. He didn't find it and came back. Stone paid his expenses back to Canada, but said nothing about his coming to Wisconsin until four years later. Then Stone wrote to Ashton and asked him to come and help work the farm. Ashton sold one farm of nine acres and kept the other comprising 265 acres. This larger farm, within seventy miles of Montreal, still stands in his name. Mr. Ashton was about 50 years of age. He leaves a wife and two children, a daughter about fifteen, and a son of ten years. Among his neighbors and friends Ashton's reputation has always been of a good character until the charge of murder was laid against him. His business relations with tradespeople in this town and elsewhere have been above suspicion and those who knew him best have been the most loth to believe him guilty. After a time it is believed the remains will be brought to Fulton in a sealed metallic case."

MORE LIGHT IN THE SKY.

Eastern Heavens Brightened By an Unusual Illumination Last Night

Again last night there were inspiring sights in the heavens. High toward the zenith in the east a huge cross, white in color and indescribably brilliant, appeared in the sky, while the moon, encircled by a similar light, made a beautiful center piece. The phenomena lasted for nearly half an hour. The meteorologists silenced the superstitious by saying it was caused by the peculiar condition of the atmosphere and the presence of a thin cloud that formed a sort of lens, causing a refraction of the rays of light from the moon.

Pleasing Entertainment Given at the Congregational Church Last Night.

"An Evening With Riley" was the title given a very pleasing entertainment at the Congregational church last night. Miss Kittie Byers read several of the Hoosier Poet's poems in a charming manner, while the Junior Endeavor illustrated the poems in tabeaux. Miss Cornelius' vocal solos and the excellent work of the Third Ward Mandolin Club were also pleasant features, the mandolin club getting a double encore although they had the last number on the program.

GEN. DOE CARRIES A HOMEY GUN.

New Weapon Is the One Adopted for the National Guard.

If you see General Doe walking down the street with an ugly looking gun under his arm, don't think that it is the result of the "roster job." The general brought with him, when he came from Washington a sample of the new gun adopted by the war department, which is to be furnished to the National Guard, and it was the subject of a good deal of discussion among them. In the eyes of the savage National Guardsman it is no doubt a beauty, but to the peaceful civilian it is an ugly looking thing. It has a short bayonet attachment which looks something like a butcher knife and which the guardsmen found some difficulty in detaching without stabbing themselves. It takes a small wagon load of ammunition in a sort of side pocket and an automatic arrangement slides the cartridge into position and throws the empty shell out after the shot has been fired. It fires with great rapidity. Some of the guardsmen did not seem to like the side-loading arrangement. It is a Krag-Jorgensen rifle, a magazine gun of 30 caliber.

A Whimsical Chap.

Once tried to quote Bulwer (was it Bulwer?) and said, "Great aches
from little toe corns grow," and altho' he didn't exactly quote he got there,
got there as it were, with both feet, at least with a part of both.

"Toe be or not to be," said Shakespeare, (or Bacon?) and he toe, may
not be far off. Foot it over hill and dale, 'til you are weary and foot-
sore, and you cannot find such bargains as we offer in building sites,
Homesites, for on these and the prices of the same and terms, too, we
always did "toe the mark." For some reason we are this spring get-
ting onto the goods, the prices and the terms with both feet. And so,
with Hamlet we soliloquize: "The wonder grows", why people are not
"up in arms" when the prices we quote are looked into. You can get
a home, if you wish, so long as we are in the business; hard times don't
count. If you are not earning so much money as you did last year, we
will meet you; it don't matter.

Homesites and Homes are our *fad*; to help people get 'em is what we
are on earth for, this time.

The main secret, we suppose, why we always get the major part of
the real estate trade going, is that we own a large part of the property
that we offer. Another part of the secret is, we deal every time so that
our customer sends to us his or her friend when they want to deal.

Our beginnings here were not large, but so true it is that "Great
oaks from little acorns grow," that the "birds of the air" have their
homes,—build their nests,—in the result of our grain of mustard seed.
Come over and roost with us. Yours very truly,

GEO. L. & SARAH H. CARRINGTON.

1805—Dr. William Buchanan, famous Scotch physician, died; born 1729.

1848—Revolution broke out in full force in Paris. Outbreak in Madrid suppressed.

THE CIRCUIT JUDGESHIP.

Judge Bennett may well feel flattered at the endorsement which comes to him from every part of the district.

Rock county is proud of her circuit judge and this pride is shared by Green and Jefferson counties, where for twelve years the name of John R. Bennett has been synonymous with justice and integrity.

William Smith, of this city, has been called into the field as a candidate this spring and will receive the backing which his popularity and his acknowledged ability could not fail to command. The people will wait, however, for better reasons than have been offered before they will consent to a change. Certainly the argument that Judge Bennett has passed his seventieth year will not suffice. The chief justice of the Wisconsin supreme court is three years Judge Bennett's senior and is one of the most vigorous members of the state's highest tribunal. Stephen J. Field, the eminent New York jurist is counted to be at his best since passing his three score years and ten. Gladstone with his eighty-three years is a standing example of the mental strength that accompanies physical vigor.

"Old men for council, young men for war," says the Beloit Free Press in discussing the judicial campaign, and in speaking of the complaint over Judge Bennett's age it says: "The objection becomes actually puerile, especially when the fact exists that Judge Bennett is today not only in the full enjoyment of his trained and disciplined mental faculties but of an enviable physical health. In no position in public life is a ripe maturity and a long experience more valuable than in a judicial one, and where these are combined with vigorous health the wisdom of the quoted adage is apparent to all. Many of the most substantial and influential citizens of Rock county have reached Judge Bennett's age, but their active participation in business and political affairs is as marked as ever, while their advice and counsel is largely sought and esteemed as sound and reliable. The Free Press has no doubt that Mr. Smith would make an able and a just judge, but that is what Judge Bennett has been and is, so there can be nothing gained to the people by 'turning down' a judicial officer who has proven himself faithful to make room for another however estimable he may be. Certainly there should be some other reason for his retirement than the possession of the wisdom of mature years, but none is advanced."

TWO MUCH TIME TO WAIT.

If this were February, 1890, instead of two years earlier those McKinley, Reed and Harrison booms, or imagined booms, might mean something. At present, however, they are a waste of time and breath. The masses of the party are not ready to shout for anybody yet. Ingersoll hit the nail on the head in his Janesville interview when he said there was time enough yet for any number of dark horses to appear.

There are still fifteen democratic senators who refuse to join the cuckoos on the presidential appointment. The country is more anxious to know how many there will be on the question of the Cleveland ruination tariff.

The workingmen would prefer that congress should give them a chance to labor, than that it should make Labor Day a national holiday. Holidays are not in favor just now; there are too many of them.

IF EX-SECRETARY WHITNEY PROPOSES TO use on the turf the same methods he uses in politics those who count upon his aid in reforming horse-racing are certain to be disappointed.

EVERY DAY MARVELS.

THEY ARE HAPPENING ALL AROUND US.

They Increase in Number and Grow More Wonderful—Where Will it End and What Will Be the Final Result.

Strange and wonderful things are happening constantly. We are becoming accustomed to them. But there is one subject that rises far above the rest and which never fails to intensely interest everybody. It concerns you reader for it means for you health and strength.

Scarcely anyone in these busy, hard working times is in perfect health. There is a weak spot somewhere, a pain, a numbness, failure of some organ to do its work properly, some vague symptom which is a sign of danger and is telling you in the plainest language to look to your health. Read the following letter and see what Mrs. J. M. Earl, of North Calais, Vt., has to say about the matter:

"I had a sore on my breast," she says, "which the doctors called scrofula. I was very short of breath, and was terribly nervous. Some doctors said one thing ailed me and some said another. I was under their care for a long time but received no benefit from their treatment. Finally someone advised me to use Dr. Greene's Nervura blood and nerve remedy."

MRS. J. M. EARL.

"I commenced taking it and soon perceived a wonderful improvement in my condition. The scrofula sore entirely disappeared and my general health was greatly benefited. I think that it has saved my life. My heart has been so bad that my husband was obliged to jump up and go for the doctor in all haste, and he did not think I would be alive on his return. But this is now all gone, thanks to Dr. Greene's Nervura. I am as well as I ever was and as tough as a bear. I want this published for the good of others. Let all those who are sick take this wonderful medicine."

Can you read of such cures and still refuse to take this medicine? Surely not, for those who take it get well. Dr. Greene's Nervura blood and nerve remedy completely and permanently cures disease. If you are not perfectly well take this wonderful medicine and you will be just as thankful as Mrs. Earl was, whose life is saved.

The spring is the best and easiest time to cure disease. Everybody needs a spring medicine and this is the surest, safest and quickest. It is purely vegetable and harmless. Its discoverer is Dr. Greene, of 35 West 14th Street, New York City, the well-known and most successful specialist in curing nervous and chronic diseases. He can be consulted by all free of charge, personally or by letter.

"We admire most the virtues we do not possess" seems to apply strongly to certain fake newspapers which devoted much space to George Washington's birthday.

The sheep which Secretary Morton says will eat Russian thistle are probably a cross of the democratic jackass with deplorable ignorance.

SONS OF ADAM.

A man may be very sharp, and yet never cut an acquaintance.

A masculine shoplifter was caught in the act in a New York store a few days since by a young woman detective.

Senor Jose Guazzone, the wheat king of the Argentine Republic, owns 63,000 acres of land and is a millionaire.

"Dr. Physic is terribly careless. He's always losing something."

"What has he been losing now?" "His patients."

Traveler, in haste—Am I in time for the next train to Mudbank, porter?

Porter—Plenty of time, sir—10:50 tomorrow morning.

"Why do you take your laundry to a Chinaman?" asked the man who has prejudices. "Because he doesn't wear my kind of shirts."

A pair of Shelby county, Kentucky, lovers, inspired by the song of "Daisy Bell," eloped to Louisville on a bicycle built for two and were made one.

Farmer Ball, of Greene county, North Carolina, who recently sent his autograph to a stranger by request, has received it back at the bottom of a promissory note.

Mingle—Is Narrowsole a liberal man? Mangle—On the contrary; were he to hear that coffins had fallen off five per cent in price he would die within an hour.

"Your husband," said the caller, sympathizingly, "was a man of many excellent qualities." "Yes," sighed the widow, "he was a good man. Everybody says so. I wasn't much acquainted with him myself. He belonged to six lodges."

Three Judges to Be Investigated.

MILWAUKEE, Wis., Feb. 24.—Congressman Somers of Milwaukee, according to a Washington dispatch, has prepared a resolution providing for an investigation of other Federal Judges on the same charges as those preferred against Judge Jenkins. The judges named are Pardee of the Texas circuit and Dundy of the Omaha circuit. It is intended by this resolution as alleged to make the investigation now undertaken by Congressman McGinn an investigation as to the law in the matter and not personally as to Judge Jenkins.

Miners and Operators Confer.

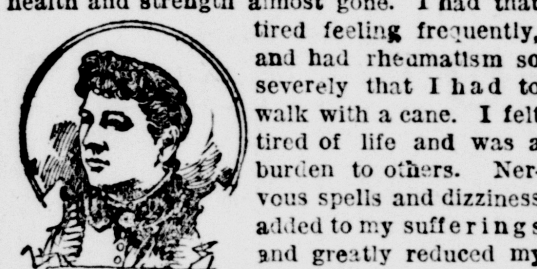

MASSILLON, Ohio, Feb. 24.—A joint conference was held yesterday between the miners and operators of the Massillon coal district on the 15-cent differential in mining rates which the operators have refused to pay since Feb. 19. Nothing definite resulted. In the evening at a secret conference the miners deputized National President John McBride, Sub-District President Mullens, Secretary C. P. Ray, and seven others to take charge of their interests.

Recognized By Rosebery.

VANCOUVER, B. C., Feb. 24.—A. M. Beattie, Hawaiian consul appointed by President Dole, received his exequatur yesterday. In a letter accompanying it the statement is made that the reason it was held back so long was because the department had been awaiting a settlement of affairs in Hawaii. This indicates that Lord Rosebery has concluded to look upon the provisional government as a fixture.

Tired, Weak, Nervous

"I was in a discouraging condition, my health and strength almost gone. I had that tired feeling frequently, and had rheumatism so severely that I had to walk with a cane. I felt tired of life and was a burden to others. Nervous spells and dizziness added to my sufferings and greatly reduced my strength. I began to take Hood's Sarsaparilla and soon was so much better that I kept on until I felt like a different person. I owe my present good health to Hood's Sarsaparilla."

25,000 Acres of Good Farming Land For Sale.

Short Description of this Farming Land Which is now for the First Time Open to Settlers and at Prices Which are Within the Reach of All.

The land now offered for sale lies within four to ten miles of the county seat, and adjoining the new town of Columbia which is located on the Northwestern line at the Junction of Fall river, or Wedges creek, and the C. St. P. M. & O. Ry., only seven miles from the county seat.

THIS LAND lies on a beautiful plateau sloping gently to the South and East, it is well watered by creeks fed from springs of soft water. The land is free from stones save along the river, and there

is a sandy loam, deep and rich with a clay subsoil. Corn, potatoes, sugar beets and a variety of grasses, such as clover, timothy and redtop, have an abundant yield. Mr. H. D. Lockman, a farmer living on land adjoining Columbia took first prize on corn, potatoes and vegetables, at the Clark county fair this fall (1893), which speaks for itself as to the quality of the soil, when lands in other portions of this county are held from \$50.00 to \$100.00 per acre.

GOOD WATER can be found at a depth of from twelve to thirty feet and the supply is abundant.

THE CLIMATE is all that could be desired. The air is pure and healthful, free from miasma or any disease breeding influences.

ROADS will follow section lines will be free from heavy grades and deep mud.

SETTLERS on surrounding lands are principally Americans, Scandinavians and Germans. The whole country is dotted with farms, the thrift and welfare of whose owners cannot be doubted, and the fact that few are willing to sell their farms speaks well for the prosperity of the country. In addition to

NO SUCH OPPORTUNITY

DR. MARTIN IS DEAD AT A RIPE OLD AGE.

WISCONSIN'S OLDEST FREE
MASON PASSES AWAY.

Joined That Order In England in 1831—
Was Once Queen Victoria's Riding
Teacher—He Had Been Frequently
Honored By Public Office—Funeral
On Tuesday.

Dr. C. L. Martin is dead. Heroic
was the struggle, and long, but death
conquered and Wisconsin's oldest Free
Mason and one of her oldest and most
respected citizens has been called
home, ripe in years, ripe in experience,
ripe in good deeds. C. Loftus Martin
was born in Hollerton, Nottingham-
shire, England, May 1, 1801. His
early days were spent upon his father's
farm. Walking four miles to
school each day Dr. Martin acquired
an education and when he was twenty
one years of age he left home to shift
for himself, he being a younger son
and therefore having no legal claim
on the parental property. While
clerking in a mercantile establishment
in London he studied anatomy and
surgery and entered St. George's Hos-
pital in London. He subsequently

DR. C. LOFTUS MARTIN.

turned his attention to veterinary
surgery, becoming a student of the
veterinary college of London, finishing
the course in 1828. His skill soon
won him a large practice in his pro-
fession. At the same time he ran
an extensive hack line in London and
at the same time acted as a rid-
ing teacher to Queen Vic-
toria. It was in Lon-
don that he first married, his wife be-
ing the daughter of his business par-
ner, Miss Ann Cronk. This was in
1829 and he remained a resident of
London until 1848 when he and his
wife came to America. After a year's
travel Dr. Martin bought a 200 acre
farm near Beloit where he cultivated
the soil and raised fine horses. His
only business venture was a disastrous
one, he lending \$11,400 on security
that was worthless, and losing all of
it but \$200. In farming he was very
successful. He continued to operate
his farm until he lost his wife, who
died in 1856. The following year he
sold the farm which is now the prop-
erty of H. H. McLennegan, and one
of the finest farms in Rock county.

Came to Janesville.
In 1857 Dr. Martin removed to Janes-
ville, where he established himself in
practice as a veterinary surgeon, and
where he continued to reside until
his death. His rare skill and marked
success in his profession led to a lucra-
tive practice.

On coming to America the doctor
affiliated with the whig party in pol-
itics, but his sympathies being in favor
of human liberty he soon became iden-
tified with the free soil party and
later with the republican party. Some
years ago he became dissatisfied with
the party management and endorsed
Cleveland's administration and was
ever after in sympathy with the dem-
ocratic party in national matters. He
was never ambitious for political hon-
ors. He was alderman for two terms
and was coroner of Rock county. He
was the city pound master at the time
of his death. On February 16, 1893,
he was commissioned lieutenant col-
onel of the 9th regiment, Wisconsin
state militia, by Governor Alex. Ran-
dall. This fact was not generally
known even among his friends.

In Freemasonry the doctor has
borne a conspicuous and honored part,
both in England and America. From
a certificate issued by the Masonic
 lodge called the Lion and Lamb No.
227 of London, which was formed
under the constitution of the United
Grand Lodge of England, it appears
that C. L. Martin was initiated in that
body December 5, 1831. He served five
years as the master of that lodge.

A Mason of High Degree.
After coming to America he soon
became prominent in the work of the
order in this country. He assisted in
organizing the Chapter in Beloit, and
later became a member of Janesville
lodge, of which he has served as mas-
ter for many years. In 1858 he was
elected grand master of the Royal and
Select Masters of Wisconsin, was
twice re-elected to the same position
and has since been a member of the
Grand Lodge of the state holding nu-
merous high offices. He was long re-
cognized as one of the most prominent
Masons of the state.

Dr. Martin was long identified with
the Rock County Agricultural society
and served as president and vice presi-
dent. He assisted in the organiza-
tion of the Wisconsin State Agricultur-
al society and served many years as
an officer of the same, being vice presi-
dent twenty-eight years. When the
history of the society shall be written
his name will necessarily figure con-

spicuously as one who has labored
long and faithfully in its interests.
He and his wife had no children,
but they reared two girls. One, Miss
Ann Cronk, was a niece of Mrs. Mar-
tin and is now the widow of James
Hemming, and resides in this city.
The other, Harriet Goldstone, is a
niece of an English Masonic friend,
and is the doctor's widow, their mar-
riage having been celebrated in 1885.
Dr. Martin possessed his mental facul-
ties to the last. As a man and citizen
he was ever held in high esteem for
his strict integrity and sterling qual-
ities of head and heart.

LOCAL FIRMS LOSE \$40,000 IN LEAF.

FAILURE OF L. PINCOFFS A
HEAVY BLOW.

Frank S. Baines, Heddles & Carter and
L. B. Carle & Son Held the Chicago
Man's Paper and Are In Doubt
How Much They Can Realize—One
Man Loses \$70,000.

Janesville tobacco dealers suffer a
loss of nearly \$40,000 through the
failure of a big Chicago firm.

L. Pincoffs has gone under.

His reckless dealing involves many
throughout the country.

Janesville's loss is heavy but it is
light compared to Stoughton's and is
small indeed compared to that suffered
in other trade centers.

The firms that are affected in this
city are E. S. Baines, Heddles & Carter
and L. B. Carle & Sons. What their
individual losses will be hard to say.

Much of the tobacco which they sold
to Pincoffs has not yet been delivered
or is on board ship en route to Ger-
many. Whatever they can get hold of in
these lots is so much saved. Consid-
erable of the Pincoffs paper is also se-
cured, so that there may be a partial
conversion into cash. As the matter
now stands, however, it is understood
that Baines loses \$18,000, Heddles &
Carter between \$8,000 and \$9,000 and
Carle & Son about the same. These
losses are on notes which Pincoffs
gave for tobacco packings brought
here, and which have not yet ma-
tured. The chance of securing pay-
ment on them is small, as the First
National Bank of Chicago has taken
steps against the concern to secure
\$62,000, while Reinhardt Baedeker, of
Bremen, Germany, wants \$70,000.

His Deals Were Very Heavy.

The firm of L. Pincoffs is one of the
most prominent in the tobacco busi-
ness, east or west. For twelve years
it has had a Janesville agency, and its
promptness and regularity in meeting
paper won it a high name. In all the
twelve years it never let a note go to
protest and never allowed the slight-
est question as to any account. It
made heavy purchases and shipped
immense quantities of leaf to Ger-
many. Most of these deals were as
agent for Reinhardt Baedeker, of Bre-
men, who loses so heavily in the crash.

Baedeker had the most implicit con-
fidence in his Chicago representative,
and gave the firm a standing credit of
\$100,000 in the First National Bank
of Chicago. It is through this large
credit, leaf men say, that Baedeker
was made to suffer. Shipments were
paid for by the New York agent, and
drafts were made on Baedeker direct
for the same goods.

"How could he get a line of credit
big enough to catch local dealers so
heavily?" was a frequent question to-
day.

Unfailing promptness and a display
of ample resources during twelve
years of extensive dealing is the ex-
planation. Pincoffs was always a
very heavy dealer, but always bought
on time and shipped the goods to
Europe, paying his Wisconsin agents
as soon as he got the money from the
old country. Large orders from him
were therefore no surprise as he was
known to have many avenues for
disposing of leaf even in dull times.

Many Janesville firms have sold him
good on credit from year to year but
all have been paid the day their notes
came due.

Dull Times Gave Him a Chance.

The gilt edged credit thus built up
was the instrument used in stripping
Wisconsin, Ohio, Pennsylvania, New
York and Bremen. For a long time
the leaf market has been at a stand-
still. There has been no market for
leaf at any price. Into this stagnant
market plunged Pincoffs. He ordered
goods right and left, offering prices
that were exceptional for export stock.

Other exporters say they cannot get
the prices in Europe that Pincoffs paid
the farmer in Wisconsin for binders
and fillers. Nearly five thousand
cases were bought around Janesville
and Edgerton and five thousand in
Stoughton alone.

Large packings were held in his
name here, in Edgerton and in
Stoughton. One day every case of
these was ordered shipped east and
European shipments became heavier
than ever. It is said that 4,000 cases
were on the ocean at one time. Drafts
were made for all of this the day
steamers were loaded and the drafts
were honored instantly. Everything
looks as if the old man and his sons
set out to make a "killing" and gath-
er up all the cash possible. They de-
clare, however, that they would have
been all right had it not been for
speculation. They told country deal-
ers that they were shipping heavily
because of the tariff of 25 cents a
pound which Germany is soon to levy
on all leaf.

No Failures Will Follow.

The loss in Janesville falls most se-
verely on F. S. Baines, who was Pin-
coffs' accredited agent. Mr. Baines
has secured himself in the last two
days, however so he is in much better
shape. No local complications will
follow. Janesville attorneys and to-
bacco men are in Chicago to-day look-
ing into the matter.

The first breath of suspicion as to
the standing of Pincoffs came on Wed-
nesday when a note went to protest in
Stoughton. Tuesday an attorney was
here from Chicago and Wednesday a
note went to protest in the First Na-
tional bank of Chicago and the trouble
began. The matter has been kept
from the ears of Chicago news-
paper men as yet but will doubtless be
a public matter to-morrow.

CHANCE FOR A BIG FIRE AVERTED

Papers Ignited in the Basement of Bort.
Bailey & Co's Store.

A serious loss by fire was averted at
6 o'clock this morning by the timely
discovery of a blaze in the basement
door of Bort, Bailey & Co's dry goods
store. A lot of paper stored against
the doors had been set on fire and the
doors were just beginning to
burn when the fire was discovered by
one of Robinson & McClean's men. An
unsuccessful attempt was made to give
the alarm to the fire department
through the telephone but a few pails
of water with the use of hose from
the brewery extinguished the fire with
slight damage to the doors. There
is rubbish enough scattered in the
alley to fire the whole row of business
blocks, and it should be the business
of some one to clear it up.

JOHN HEMMING MAY NOT GET WELL

Dr. Nicholas Senn Called From Chicago In
Consultation With Local Physicians.

The condition of John Hemming,
who was poisoned by the prick of a
drawing compass used in school is be-
coming quite alarming. It was
thought that the boy was improving,
but the inflammation in his leg ap-
pears to increase and a consultation
of doctors has been decided upon. Dr.
Nicholas Senn of Chicago, was called
and will arrive this evening. It is
now intimated that amputation will
be necessary to save the boy's life.

VENGEANCE ON JUDGE H. S. CONGER

"Molly Maguire" Letter That Dates Back
to the Mack Trial.

There has been much agitation over
the Ashton case but one source of ex-
citement has been lacking. Nobody
has threatened to "white cap" Judge
Bennett unless some of the opposition
to his candidacy can be taken in that
way. When the Mack case was tried
things were much livelier. B. B. El-
dredge was looking through his
papers the other day and found a yellow
scrap of foolscap which came to
Judge Conger by mail during the pro-
gress of the noted trial. It hints of
suspicion as to the attitude of some
particular juror, reads and as follows:

JANESVILLE, Wis., May 18, 1878.—
HON. H. S. CONGER, DEAR SIR: If
you don't charge that juror to find
Dickerson guilty of murder in the first
degree, you will be shot on sight.

Per order of Molly Maguires.

JOHN KELLY'S LIFE CUT OFF BY POISON.

THE SAD DEATH OF AN OR-
FORDVILLE FARMER.

He Contracted Disease While Nursing
His Aged Father and the Nurse,
a Neighbor, Handed Him a Drink
of Chloral Thinking That It Was
Water.

John Kelly's death at Orfordville
was a sad one; his nurse handing him
a fatal drink by mistake. A few
weeks ago Kelly was summoned to
Albany to take care of his father, who
was sick with pneumonia. Mr. Kelly
died and some time after his son was
taken down with the same disease,
but was recovering. Night before
last a neighbor who was staying with
him, by mistake gave him a solution
of chloral for a drink of water and
death resulted within an hour.

Quite a Rooster Now.

He is simply being fattened up for the
feast. That is to say he will grace
somebody's table, a boarding house
table perhaps and pass for turkey. This
teaches us two things. Elegant treat-
ment for a short period may lead up
to a final slaughter of the innocents
and things are seldom what they
seem. However you will hear from
us later on the Rooster Business. We
wish to make known our policy to
1894. As you know cash is king. So
bring us your money and we will see
that you get greater bargains than
any concern can possibly give you
that sells on long credit.

Economy

Is a very important condition these
days when every man feels that he
must make the best out of every
dollar. By carrying out this prin-
ciple we are able to offer extra values
at prices that are self evident bargains.

This policy you will admit is thrift.

"We're bound to please
Just take your ease (on t. at score).
We will make to all
Both great and small, the same price.
We'll treat you well
So you will tell (your neighbors).
We'll aim to keep
Top of the heap, (on our line)
Our goods will be
The best you'll see (anywhere).
Are you with us.

Dr. H. A. McChesney's Success.

The question is often asked why Dr. McChesney succeeds with his patients when when so many others fail? The fact is simply this: Dr. McChesney is a very close student; he has studied diseases of the eye, ear, nose, throat and lungs all his life. He is a graduate of some of the best medical colleges in the United States. He has made those special organs the theme of this profession. You all know that if a person takes up a particular line and devotes the undivided attention to that line, he is sure to excel sooner or later. That is the simple reason Dr. McChesney can cure diseases of those organs. One hundred and fifty people are now under his care, and not a single one among that number but who are finding relief. The doctor is a decided success in his specialties, and any one suffering with diseases of the eye, ear, nose, throat or lungs will find it to their interest to see him at once.

Right or Wrong . . .

In these times a merchant may just as well plant broomsticks and expect blossoms as to try and build a business on mere "buncombe". The fellow who follows this fallacy may think he is plucking Apples of Gold from the Gardens of Hesperides, but he isn't. When the public "get onto him" they do it with both feet and--

"The fruit he loved so much,
Will turn to dust and ashes at his touch."

Our success---such as it was---never obtained by any amplification of the truth. When we advertise bargains---
